Already the thirteen Gothic Party Brno will be held on Saturday 24th of April in the music club Favál music circus, at Křížkovského 22, in Brno. In its seven-year existence, the event has become a traditional get-together of people who like gothic music, fashion and lifestyle. It is an event, at which visitors sink into the underground of the city of Brno and get surrounded by a decadent atmosphere.

Performing live this time will be the German deathrock band **New Days Delay** that entered the scene in 1999. Until 2003 the band didn't use a live drummer and recorded two demos, "Plastic Faces" and "I Survived New Days Delay". However, in 2003 a new drummer joined the lineup. In 2007 the first album called "Splitterelastisch" was finally released at Alice In ... NDD. The band that will perform in the Czech Republic for the very first time played many concerts all over the Europe in the past years (including the biggest gothic festivals, such as Wave Gotik Treffen). Their original sound can be described as a modern catchy rhythmic deathrock (that the Czech audience has associated mainly with the band The Last Days of Jesus) with influences of gothic rock, post-punk and with minimalist elements. The charismatic leader Insa sings both in English and her native German.

The second performing band at the event will be a four-member German band called **Zadera** with a lead singer Conny that play music combining gothic rock and post-punk. The band released two albums, "...Something Red" from 2004 and "Über die Jahre" ("Over The Years") from 2007 at Strobelight Records. Their music is an interesting mix of two extremes - fast melodic post-punk and dark melancholic gothic rock. Those who like classic gothic rock of the 80's, just like Siouxsie and the Banshees or X-mal Deutschland, should definitely not miss their performance. Also Zadera has played many concerts in the past, even at big festivals (for example, already mentioned Wave Gotik Treffen).

The last of performing guests of XIII. Gothic Party Brno are representatives of the Czech music scene - **Akimbo** from Šumperk is an industrial project that returns to the stage after a long gap. Their music will be appreciated not only by fans of pure industrial sound. The live performance of the band also has a visual element and is supported by a video projection. In 2009, Akimbo released their first CD called "Ein Tanz mit dem Tod" and played several events at home as well as abroad (for ex. at industrial festival in Wroclaw). Same as the other two bands, Akimbo will play in Brno for the very first time.

After the live performances, the attendants can look forward to dark & gothic party (Sanctuary.cz DJ Crew) - until early morning mainly gothic rock and deathrock will be played. Fans of other "dark" kinds of music, as batcave, new wave, gothic metal, electroclash, industrial or darkwave, will not be disappointed either.

During the evening the guests will be bathing in the lights of installation **TVMirror** in style of video-art of the 70's. Exclusive décor of the interior will include also an interactive projection and sets of stylish plastic works of art accompanied by a play of lights and fog. Moreover, there will also be a favourite raffle in which entrance tickets of attendants will be drawn as usual.

The rich accompanying program of the whole evening includes a fashion show of the Internet shop with gothic clothes Temnota.sk, exhibition of pictures painted by Martin Kühn, exhibition of photographs, stylish dance performance, and tarot reading by Zuzana Antares.

The organisers as well as guests will appreciate if there will be as many people dressed in stylish clothes as possible. However, dress-code is not required for entry.
